**SAW PALMETTO FOR BPH RELIEF?
BETA SITOSTEROLS FOR RENEWED SEXUAL VIGOR?
DESPERATELY SEEKING SOMETHING THAT
ACTUALLY WORKS?**

Here's the missing link to superior prostate health that is a **MUST**
for all men over 40!

HEALDINE #2

**HERE'S THE ONE INGREDIENT THAT OUTPERFORMS
SAW PALMETTO, BETA SITOSTEROLS AND ALL THE
OTHER PROSTATE REMEDIES YOU'VE TRIED**

If you're among the 90% of men who are sick and tired of the
countless trips to the bathroom ... the slow and painful urination ... the
stop and start when you try to go and the feeling that you're never quite
"done", then this physician developed formula is for you

Dear Fellow Man,

If you're like lots of men out there you've experienced prostate issues. And, let's face it, the prostate is the key to your manhood - especially sexual pleasure and potency. This vital gland's main function is to produce fluid that becomes part of semen. During orgasm, muscle contractions squeeze the prostate, which delivers fluid into the urethra to transport the sperm.

A healthy prostate does its job without complication by supporting a fulfilling, energetic sex life and helping nourish the male reproductive organs.

If you're ready to relieve your prostate problems, have the sexual energy of a teenager and feel ready for anything, I have just the answer for you in a formula that's **200% stronger** than other remedies you may have tried.

What is this new ingredient that will give you blessed relief from your symptoms?

This exceptionally powerful solution is called **rye pollen** and it's guaranteed to ...

- ✓ Deliver maximum relief and control
- ✓ Give you superior pleasure and potency, and
- ✓ Supply a new found freedom from prostate problems

Before I tell you all about this fantastic discovery, let's look at why yesterday's remedies like saw palmetto and beta sitosterols simply don't work anymore.

Better Than Saw Palmetto!

Not long ago, saw palmetto ... the fruit extract that was once thought to be the go-to botanical to relieve the symptoms of BPH ... was advertised as being the answer to all your prostate problems. This wonder ingredient was thought to help ...

- Reduce your risk of developing prostate cancer
- Defeat hair loss
- Retain healthy testosterone levels for increased sexual performance, and
- Support a strong urological system

You may even be one of the legions of guys who tried it with some degree of success.

And it worked. For a little while.

I have patients ask me why their dosages of saw palmetto lose effectiveness and this is what I show them:

Studies on saw palmetto by both the *New England Journal of Medicine* and *Harvard University* have revealed it to be no more effective than placebos even at higher doses than the typically prescribed 320mg/day

<http://www.nejm.org/doi/full/10.1056/NEJMoa053085#t=article>

<http://www.harvardprostateknowledge.org/saw-palmetto-fails-to-relieve-bph-symptoms-in-new-harvard-study>

No more effective than placebo? Are they kidding?

Unfortunately not.

Beta Sitosterols Aren't Much Better

This plant based ingredient is frequently used for lowering cholesterol levels in the blood and can be found in everyday grocery products like yogurt and margarine. What it does for BPH is help reduce swelling in the prostate gland which, in turn, relieves symptoms.

Yet, here is what it doesn't do: Shrink an already enlarged prostate.

What's the difference? Tissues lining the prostate gland are swollen due to inflammation and beta sitosterols can help with that. But it won't make your prostate smaller so you will never truly get the relief you seek. <http://www.webmd.com/vitamins-supplements/ingredientmono-939-beta-sitosterol.aspx?activeingredientid=939&activeingredientname=beta-sitosterol>

Say Goodbye to Lagging Libido, Weak Erections and Embarrassing Lack of Potency with Prosta-Rye!

The secret to **Prosta-Rye's** effectiveness is a rediscovered nutrient shown in studies to support a trouble-free and normal sized prostate which leads to a more vigorous sex life. And it's so effective that it leaves saw palmetto, pygeum, and other so-called prostate remedies in the dust.

The future of male sexual health changed dramatically when top scientists discovered the hidden stash of "miracle prostate nutrients" in the husk of the ancient rye pollen!

These scientists found that the near-impenetrable husk of this ancient grain was packed with soothing compounds that can deliver **COMPLETE RELIEF** from many of the major signs of prostate enlargement!

What does this mean for you?

- ✓ Renewed sexual energy and stamina
- ✓ A solid 8 hours of sleep every night without waking up to pee
- ✓ No more urges to go or irritation and interrupted streams

Here's the Science Behind Rye Pollen That Makes This Ingredient a Slam Dunk

Recently, progressive clinics in Great Britain, Germany, Sweden, and Japan have conducted rigorous research into the unique nutritional make-up of the ancient super-food rye pollen.

In one study, mature men with prostate enlargement problems were given either rye pollen extract, the prostate herb Pygeum africanum, or a combination of amino acids already found in the prostate.

After 4 months, the men were tested for prostate size, bladder health, medical indications of prostate enlargement and, last but not least, RELIEF.

The result?

Those who took rye pollen extract enjoyed greater relief and improved quality of life in ALL AREAS of prostate trouble

Here's what the men who took the key ingredient in **Prosta-Rye** enjoyed:

Improvement in prostate size and flow rate over **200% greater than those who took the pygeum or the amino acids**. With nearly **30% BETTER relief** from irritation.

Prosta-Rye contains 180 mg of rye plant nucleus extract. This is the same form and dosage proven in placebo controlled studies to relieve prostate problems.

I firmly believe that **Prosta-Rye** is one of the best solutions yet to help ...

- ❖ Shrink an enlarged prostate safely and naturally
- ❖ Relieve and control urinary urgency and irritation
- ❖ Improve urine flow
- ❖ Decrease residual urine in the bladder
- ❖ Eliminate hesitation before and dribbling after you go
- ❖ Restore sexual health, desire and stamina

... without the side effects from other remedies! It will not cause erection problems, loss of desire, and weak ejaculation. In fact, many men tell us that it has the complete **opposite** effect.

4 Decades of Research and the Discovery of a Serious Problem Long Overlooked

The active ingredient in **Prosta-Rye** has been medically researched for nearly 4 decades. Scientifically controlled studies have shown a **success rate of 80-92%**. No more nighttime urination, no more straining, no more dribbling.

Just relief.

But there's another **serious condition affecting your prostate health** you may not have heard about, and it occurs in men of all ages. The telltale signs are:

- A strong urge to urinate
- Painful urination
- Lower back pain
- Groin pain, and
- Fever or chills

The lower back and groin pain mixed with fever and chills were thought to be the flu or a cold. Even worse, most doctors had no idea how to treat it. Typically, they'll try antibiotics - and sometimes they work. But sometimes they don't. And you can end up chained to these potentially health-sapping drugs for months or even years.

In a groundbreaking study published in the *British Journal of Urology*, patients who had been through the mill with prostate problems were given the active ingredient in **Prosta-Rye**. A full 13 out of 15 got relief. And in 7 of these men, their prostate problem was eradicated completely!¹

In another study of 25 men with prostate problems, the researchers noted a **92% success rate**.

Two Key Components Give Prosta-Rye Its Power

Prosta-Rye contains 2 key components of the rye plant pollen (*Secale ce-reale*). One component, P60, is extracted directly from the rye plant nucleus and the other is a rye plant extract called GBX. Together, they support your prostate on multiple levels:

1. **Safely shrink an enlarged prostate:** This is the point where beta sitosterols fail. There are two active substances found in large amounts in the prostate: Inflammatory molecules called prostaglandins and leukotrienes. Left unchecked, they cause the inflammation and swelling that leads to sensitivity, urgency, and hesitation. The active ingredients in **Prosta-Rye** keep these inflammatory compounds under control for soothing relief.
2. **Relieves urgency and frequency:** This is achieved by supporting healthy bladder contractions and relaxing the urethra. The urethra is the tube through which urine passes so the more relaxed and open the urethra is, the more easily you can urinate.
3. **Symptoms eventually disappear:** Finally, there's one more amazing advantage the ingredients in **Prosta-Rye** hold over the other so-called solutions: They last. In fact, when taken as directed, the relief you'll get from **Prosta-Rye** is so complete that one day you'll realize your symptoms have disappeared.

How about this for a game changer:

85% of men taking Prosta-Rye still experience freedom from nighttime urination and other problems one year later!

In a landmark study, 79 men, ages 62-89 took the active ingredient in **Prosta-Rye**. Scientists found that an incredible 85% of the volunteers taking the rye pollen reported relief from nighttime urination, urgency, discomfort, incomplete emptying and dribbling even a full year after the study began.

In a matter of weeks, you can be completely trouble-free!

No more nighttime urination, no more straining, no more dribbling. Just *relief*.

Expect a Surge of Energy and Renewed Vitality with All the Vitamins and Minerals You Get in Rye Pollen!

When you take the ingredients in **Prosta-Rye**, you not only help support healthy prostate function, you also infuse your cells with natural energy and youth-building nutrition. You'll feel the difference throughout your whole body.

Amazingly, one tiny grain of rye pollen contains every essential nutrient needed for plant reproduction and survival. It's the basis of life as we know it and it supplies dozens of vitamins and minerals, including A, B, D, E, folic acid, choline, V, K, zinc, iron, sodium, potassium, magnesium, and the B-vitamin inositol.

This pollen extract also contains amino acids, RNA and DNA building blocks, plant hormones, enzymes, and health-enhancing fatty acids.

Together, these nutrients are a natural treasure trove of energizers, male health protectors, and even mood boosters and pain-relievers.

And you're going to need all that energy, once your prostate problems vanish and your desire comes rushing back to you!

Who Should Take Prosta-Rye?

If you're over 40, I highly recommend you take **Prosta-Rye** even if you're not yet suffering any prostate problems.

Why?

So you can avoid them in the future!

If you're already dealing with prostate problems, **Prosta-Rye's** ingredients are a natural, proven, potent way to get back on track.

Rapid relief... healthier sex life... and long-term prostate protection with only 1 capsule a day

The ingredients in **Prosta-Rye** are the most powerful and effective thing you can do to safeguard your sex life and reproductive health. So please don't take any chances. And don't suffer another day. Especially when every order of **Prosta-Rye** is fully protected by an **iron-clad extended guarantee**.

[design note: Place large guarantee seal here with Wellspring's name prominently placed on top and "1 Full Year" on the bottom]

You have an entire year to see if **Prosta-Rye's** ingredients deliver the relief and satisfaction you want. If you're not totally thrilled with the results, you'll get a prompt, full refund of your purchase price. No questions asked!

Don't pass up this generous offer. There's absolutely nothing to lose, so start protecting yourself today.

Yours in good health,

Don Lockwood
President, Wellspring

P.S. Your relief from pain and worry, and your amazing "new" sex life, are just a few weeks away. Send for your own supply of **Prosta-Rye** now! Take full advantage of this special offer to save up to \$56.52, and get FREE shipping and handling. And remember, if you're not completely satisfied with **Prosta-Rye** you'll get every cent of your purchase price back, thanks to the special extended refund Guarantee. This is a one-time only opportunity. Order now! Pick your package in the form below:
